

Go to <https://secure.oregonstate.edu/osuware/> and click on the "Setup file" link to save the setup file to your local drive for installation. Once you have downloaded the setup file to your local drive, locate and double-click on it to begin the installation process.

You will see this window as the program is preparing to install:

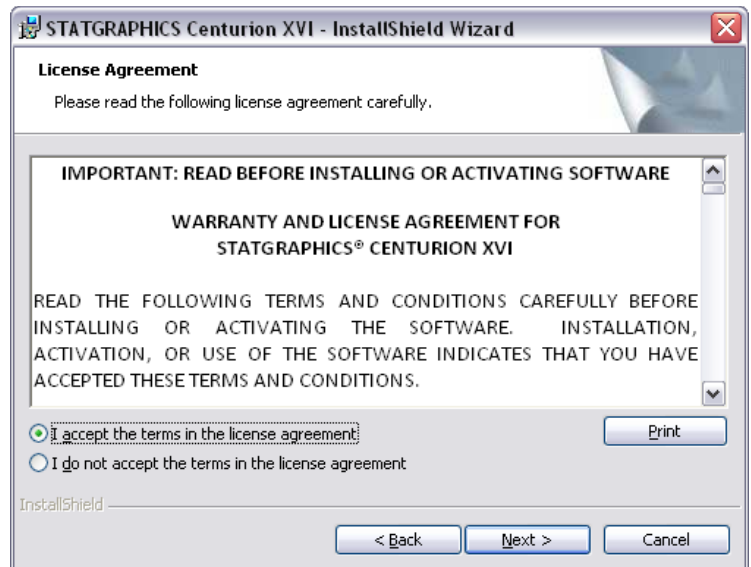

Click Next:

The next dialog box displays the license agreement for the software:

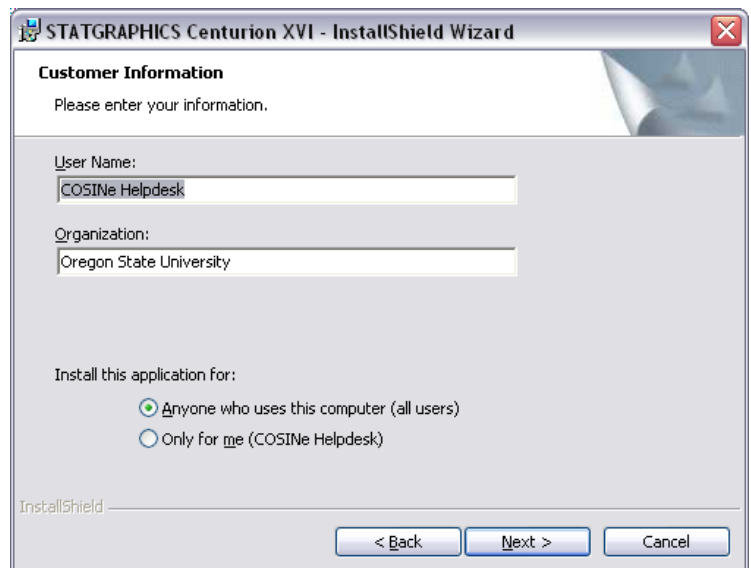

Read the license agreement carefully. If you accept the terms, click on the indicated radio button and press Next to continue. If you do not agree, press Cancel. If you do not agree with the terms, you may not use the program.

**NOTE: To comply with the license agreement, this software must be removed from personally owned computers once you are no longer employed at OSU, or are no longer a registered student. It is illegal for you to utilize this software once you are not associated with OSU.**

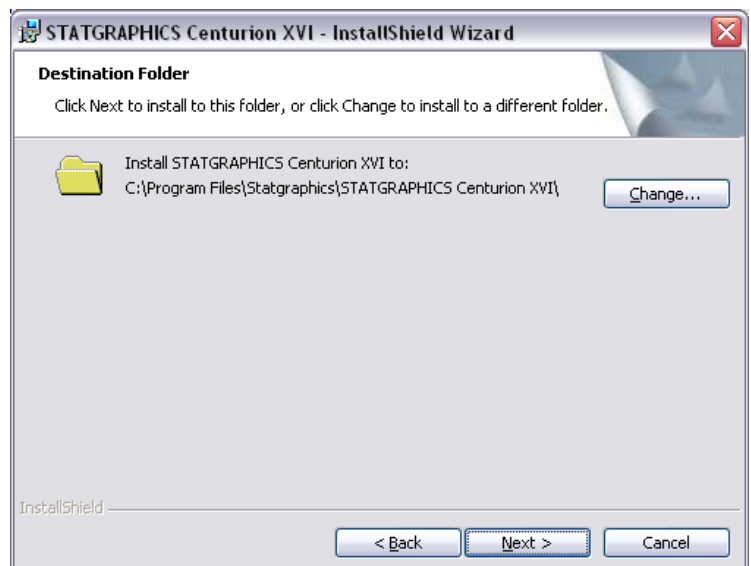

The next dialog box requests customer information:

Enter the requested information. For **Organization**, enter Oregon State University (you MUST enter this when installing STATGRAPHICS).

The next dialog box indicates the directory in which the program will be installed:

The next dialog box allows you to specify the type of installation to be performed:

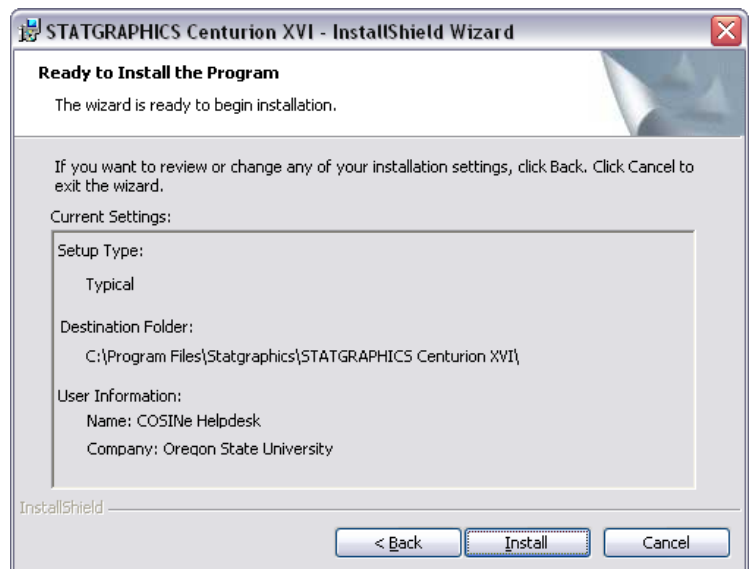

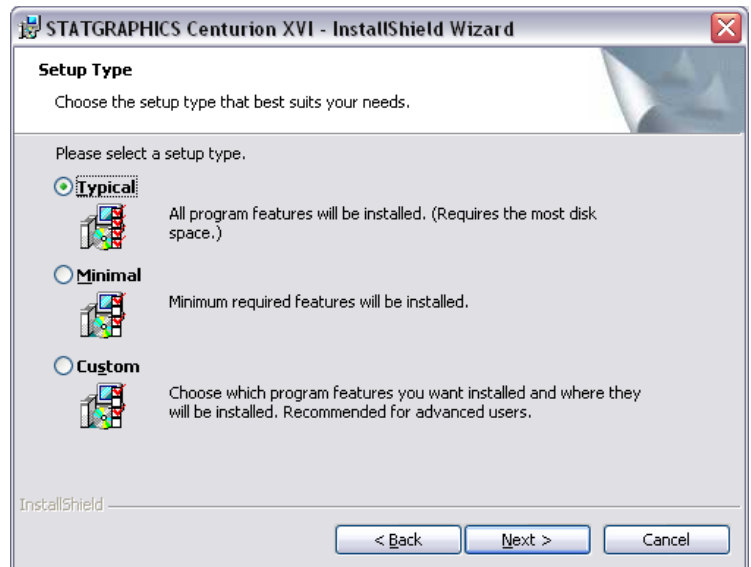

Select one of the following:

**Typical** – installs the program, help files, documentation, and sample data files. This requires a little more than 50MB of space on your hard disk.

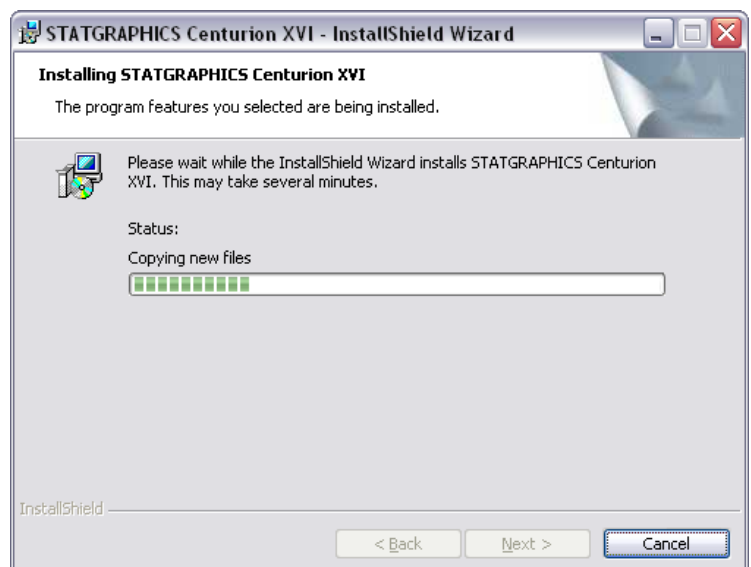

**Minimal** – installs only the program and help files. This requires about 25MB of space on your hard disk.

**Custom** – installs only the components you select. You can save hard disk space by performing a minimal install, but you won't have access to the on-line documentation and accompanying sample data files.

Click Next if you are ready to install the program:

You will see this status window as the program is being installed:

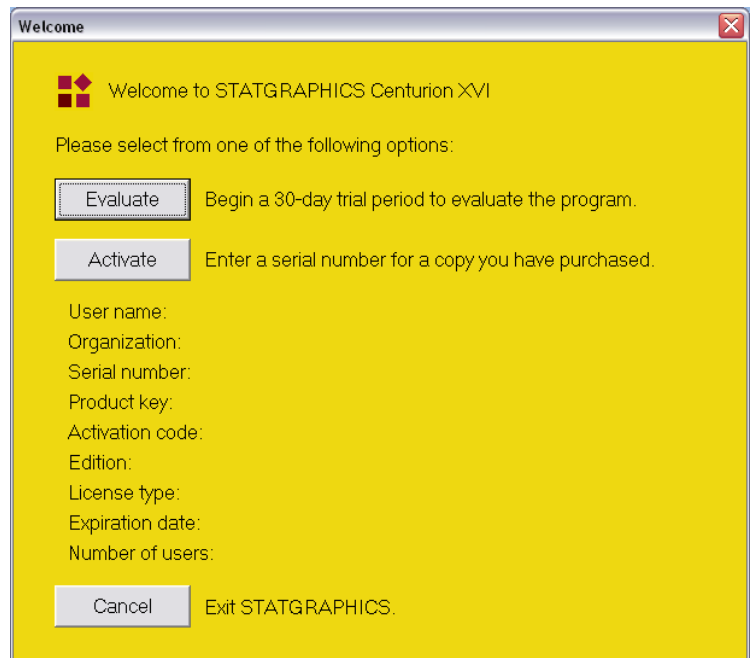

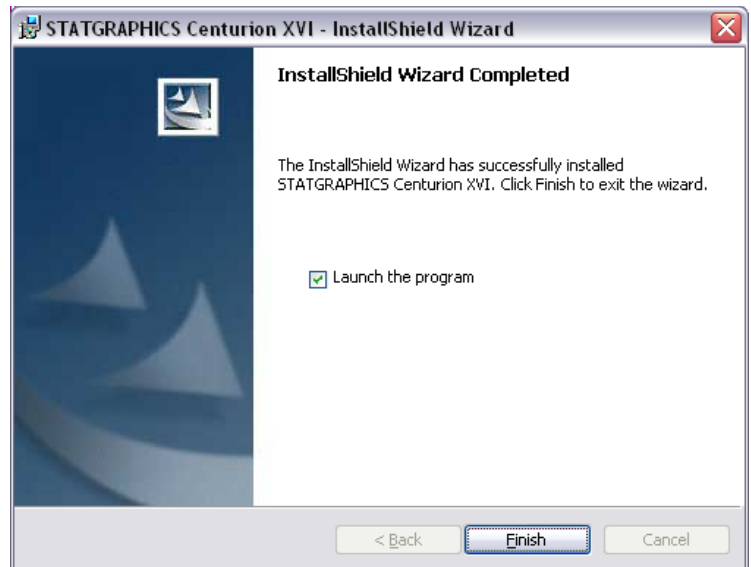

When the installation is complete, a final dialog box will be displayed. Click the Finish button (you can opt to launch the program as well):

As part of the installation process, a shortcut to STATGRAPHICS Centurion XVI will be added to the Windows Start menu and also to your desktop. To launch the program, click on the shortcut that was added to your desktop, or click on the Windows Start button in the bottom left corner of your screen and select the STATGRAPHICS icon. You may also go through Programs Files -> Statgraphics -> STATGRAPHICS Centurion XV using Windows Explorer and choose Statgraphics to execute the program.

**Note To Vista Users:** After you have installed Statgraphics you must right click on Statgraphics and select 'Run As Administrator' the first time you open the program.

When STATGRAPHICS Centurion loads, it will open up a new window. The first time you launch the program, this activation dialog box will be displayed:

You can opt to run the program in evaluation mode, or you can click on the Activate button to activate the software.

Enter the required information and then contact StatPoint in one of the following ways:

- Press the **1. Press Here** button to send the information via the Internet. **NOTE: This will only work with onid.orst.edu email addresses.**
- Press the **2. Press Here** button to request the activation code via email. For now, everyone needs to use this method to get an activation code until the internet registration is set up by StatPoint.

Whichever method you use, StatPoint will verify the information you provide and return to you an activation code. The next time you run the program, fill in any blank contact information fields again, enter the serial number and the activation code and click on the Activate button. From then on, the License Manager dialog box will not be displayed.

All OSU installs for STATGRAPHICS expire on June 30<sup>th</sup> each year. You will need to request a new activation code through StatPoint each year to renew.

If you get this window when you open the program and it shows that you are on a trial period, you need to re-enter the serial number and any other missing information. Click on Activate, then fill in any blank contact information fields and the serial number, then click on the Activate button.

This should fully register your copy, and you should not see this window again next time you open the program.

**STATGRAPHICS Centurion Activation**

StatPoint Technologies, Inc.

Step 1: To activate the program, first enter the following information (\* required):

\*Last name:  \*First name:
