## SOFTWARE

When we receive new computers, we install Microsoft Office, Symantec Anti-Virus, Acrobat Reader, SSH Client, WinZip, WS\_FTP, AdAware, and SpyBot Search and Destroy.

We can also install Banner and Data Warehouse if you request it. If you would like us to install Mozilla or Netscape as your internet browser, we will do that for you. If you have a disk with additional software you want added, we will install that. Also, if you wish to purchase a license for new software, we can purchase it for you at an educational discount. You can view the prices of the most commonly requested software at <http://my.science.oregonstate.edu/node/21>. If you want software that is not on the list, please let us know and we will try to get it for you at an academic discount.
